#Throwback1972

Meet Gail

What do you do at the Library and how long have you worked at the Library?

I've been working here for 40 years! What started out as a part-time diversion when my kids were little turned out to be a full-time career! When I first started, there were two full time and four part-time employees. I was one of the part-time employees. We all did a variety of tasks, from shelf reading (organizing the book shelves) to reference, processing books, and checking out patrons. As the years went by, they added staff, departmentalized the areas into Adult Services, Youth Services, Technical Services, and Circulation departments. I was in on the formation of the Technical Services department in which I still am a part of.

Gail - 1997

If you didn't work at the Library, what other job would you like to try?

History has always been an interest of mine. I would have loved working in a museum. If I had more time, I would love to volunteer at the Lake County Forest Preserve Discovery museum, now closed for moving. Maybe in the future…

What's your favorite thing about working at the Library?

It keeps my mind and body active. Each day brings a new challenge. It's a delight to walk through the Youth Services Department and see so many children engaged in reading, program participation, and using the computers. It doesn't hurt that everyone who works at the library loves working here and are wonderful people to work with.

What's something people would be surprised to learn about you?

I've been married for 51 years, have three adult children, and one grandchild.

What is your favorite memory about the library?

That's a hard one! We have had so many wonderful programs and celebrations. I think my favorite was the library's 25th anniversary. Most people were dressed up in vintage clothing, there was a band, everyone danced, and refreshments were served. The most memorable part of the evening was when an ambulance had to be called because one of the guests who was dancing fell and broke a leg! No, the refreshments didn't include alcohol! It was still a wonderful time!

Thank you to the Round Lake Area School District for partnering in our 2017 Summer Reading Club.

Is the Library haunted?

Have you ever heard your name being whispered in a building that is only occupied by you? Have you gotten chills from seeing a dark shadow pass you by?
After experiencing some weird things, someone at the Library was brave enough to ask those questions to a few coworkers and here are their responses...

Coworker #1
I've heard my name being called when I am walking down the bookshelves aisles.
I get scared, especially because I am the only one in the building late at night.

Coworker #2
For a group program, a blow dryer was used to dry off projects. As everyone huddled up at the end for a group photo, the blow dyer turned on from across the room. It's worth noting that not only was the blow dryer across the room, but it was also unplugged. Creepy...?

Coworker #3
I had the maintenance crew check the ceiling because I heard scratching sounds coming from the floor above. After maintenance inspected the floor above they cleared any strange sounds and views. The noise continues to this day.

Coworker #4
Although Indianhead arrows were found on the property before the library was built, I don't believe it's haunted. One of our past director's even had a paranormal investigation team come in and investigate one night. They didn't find any activity. Maybe they were just quiet that night!
