

# Permaculture Series

## Food Forest

**Did you know the Library has a Food Forest?** What's a Food Forest? It is a planting design that starts with fruit and nut trees and ends with root vegetables. In between are layers of edible plants. Ours is located along the parking lot and we could use help maintaining it. Popsicle sticks have been placed in front of the plants to help you identify what is a plant and what is a weed.

Join us for a new learning series of programs about Permaculture:

### **Sorting out Permaculture, Sustainability and Organics**

**Saturday, Sept. 10, 10:00 a.m. – 1:00 p.m.**

### **Planting an Edible Landscape**

**Saturday, Oct. 15, 10:00 a.m. – 11:30 a.m.**

### **Growing a Food Forest**

**Saturday, Nov.12, 10:00 a.m. – 11:00 a.m.**
